Demolition Derby Vehicle Building Specifications

These rules apply to mini vans/large class and 4-cylinder cars, some variances apply.

1. Safety for spectators, officials, drivers and crews is our first concern. Fire, flying debris, and impact injuries, keep these thoughts in mind when you are stripping and building your car.
2. Mandatory stripping of a car:
 - * Remove all glass, lights, lenses, mirrors and hardware.
 - * Remove all body trim, hubcaps and exterior ornaments.
 - * Remove fuel tank.
 - * Remove trailer hitch and all mounting hardware.
 - * Remove all interior upholstery, plastics, carpet, and trim except front seat. Dashboard may stay in.
 - * Prior to tech inspection car must be cleaned of all loose objects, glass and debris.
3. Building a safe competitive car:
 - * The tech judge's decisions will be final.
 - * There will be no reinforcement except where specified.
 - * If it does not say it is allowed then it is not allowed.
 - * All vehicles will be checked for working brakes.
 - * Mandatory seat belt - lap belt is a minimum requirement.
4. Doors and door reinforcements:
 - * We will allow a cage built around driver from a sturdy, easily assembled material bolted to the car body. Bars may be welded to each other - not to be secured from B post to B post.
 - * As a minimum, the driver's door may be reinforced with a maximum of 2" x 6" box steel, for a maximum of 76" long.
 - * Door bars must be bolted or welded.
 - * Door bar can extend 8" maximum ahead of the front fender/door seam.
 - * Placement of bolts; beware of drivers' movement inside the vehicle.
 - * Remember, if this bar falls off - you are automatically disqualified from your heat.
 - * All doors must be chained, welded, stopped or secured shut.
 - * Passenger door bar attached in a similar way as above. This bar is optional.
 - * Cross bar behind the driver's seat is strongly recommended - top of left B post to right floor.
 - * Head rest optional, but must be secure.
 - * It is also recommended that the bars, door and the steering wheel be padded around the driver.
5. Window areas:
 - * Minimum of one upright bar must be placed in windshield area in front of driver, steel mesh or plexiglass is optional on top of bars.
 - * Bars or mesh over driver's window area is optional.
6. Hoods:
 - * Hoods are mandatory.
 - * Hood must have large enough hole suitable for fire extinguishing.
 - * Hood must be fastened with a minimum of two chains, bolts or wire; easily opened in case of fire.
 - * Hoods to be left open until inspected.
7. Trunks:
 - * Trunk lids are mandatory.
 - * Must be chained, bolted or wired; station wagon end gates secured with two chains, bolts or wires.
8. Battery:
 - * Must be relocated to the passenger side floor securely fastened by nuts, bolts and washers.
 - * Battery must be covered by a rubber mat or in a marine battery case.
 - * One (1) automotive type battery only.
9. Electric Switches:
 - * If used must be uniform. Up/forward for on, down/back for off.
 - * The electrical system must be fused.
10. Fuel System:

- * Electric fuel pump must be isolated with non-flammable material covering lines, tank & pump. Non-flammable covering may be fire resistant blanket or airbag material.
 - * Floating gas tanks are permitted. Gas tank protector is allowed. Must be 2-4 inches away from the floor and any other sheet metal, cannot be any wider than 24-26 inches at its widest point. Gas tank protector can only be attached to the post to post bar. Not allowed to be attached to halo bar or floor in any way!! Over build gas tank protectors will be asked to cut down, or not allowed to run. Officials decision.
11. Cooling Systems:
- * Cooling system **must** remain stock or be removed.
 - * Antifreeze must be drained and filled with water only!!!
 - * Cooling fans can be run but no steel fan blades are permitted.
12. Air Intake and Exhaust Systems:
- * Must have an air cleaner assembly with a filter element to act as flame arrester.
 - * Exhaust must exit the engine compartment through the hood or out the bottom, manifolds alone are not enough, must extend 6" past fire wall and not near fuel lines.
13. Bumpers:
- * Appropriate size CAR BUMPERS ONLY. Rebar bumper only, chrome full size car bumpers not allowed on the front of a mini car. Bumper ends must be bent inward, no jagged edges. May be wired to rad cradle in 2 locations. May be welded to the brackets & frame, 6" from the back of bumper, 2 plates per side to hold bumper on. No steel the inside of the frame. Bumper shocks can be welded. Excessive use of material will be asked to be removed. Stock size bumper bolts acceptable for mounting. Bumpers cannot be wired to the hood. REAR BUMPERS STOCK. NO LOADING OF BUMPERS. Officials may request a hole be made in bumper for inspection.
14. Tires and Rims:
- * Stock rims cannot be altered or reinforced.
 - * Valve stem protectors and tubes are allowed.
 - * No studded tires.
 - * Air only in tires, no additives, liquids, solids or fillers.
 - * Wheel wells may be trimmed for clearance (maximum of 1 inch).
 - * No light truck tires allowed.
 - * All tires must have visible dot and ply ratings on them.
 - * All wheel weights must be removed - mini car tires cannot exceed 16 inches rim diameter.
 - * Full size cars & mini van tires. Cannot exceed 18 inch diameter.
15. Engines, transmissions, differentials:
- * Must be stock.
 - * Motor mounts and transmission mounts may be chained.
 - * Shifter type optional.
 - * Transmission cooler must be disconnected at the radiator or in front of the radiator.
 - * Transmission coolers are optional and if used must be securely mounted under the hood, behind the radiator and in front of the firewall.
 - * Steering must be stock and in stock position, no alterations or modifications permitted.
17. Paint and Body:
- * No holes to be cut or left uncovered in the firewall.
 - * Driver's door, only, must be painted white.
 - * Car must be any other colour(s) than white.
 - * No profanity as decorating or advertising.
 - * No cloning of paint jobs if you enter more than 1 car.
 - * Roof signs or other objects are not permitted in derby pits.

ALL VEHICLES MUST HAVE A WORKING FIRE EXTINGUISHER MOUNTED SECURELY WITHIN DRIVER'S REACH
